

Interlocking Plates

Lock the implant to the screw without compressing the plate against the bone for stability that promotes healing.

Screw Compatibility

All DT TPLO and Osteosynthesis plates are compatible with TorqAlign locking screws or standard DT* locking screws, offering strong and reliable fixation.

*DT indicates double lead thread locking mechanism.

NEW

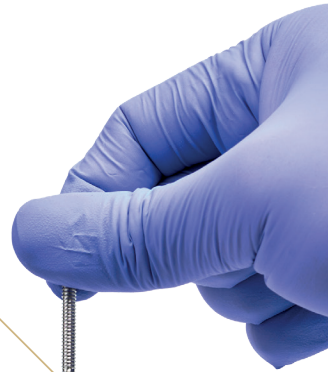

Designed for Performance

New TorqAlign Screws Bring Impactful Innovations Together

- Precision threaded locking
- Automatic screw retention
- Axial screw alignment
- Compatible with full DT Range

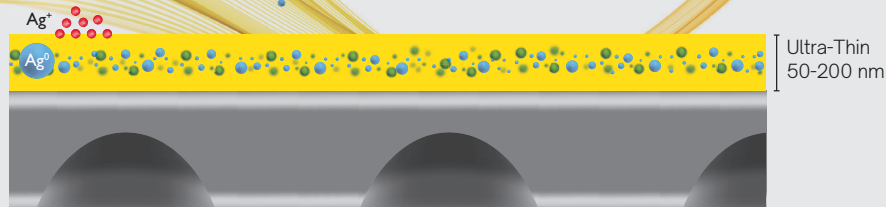

The TorqAlign screw combines optimum design features from the Movora portfolio brands and is compatible with the DT Product Range.

Automatic screw retention with TorqAlign and TorqDrive

Antimicrobial & Improved Osseointegration

Available for a large portion of the DT Range

316 LVM Stainless Steel or Titanium

Plasma polymer siloxane layer (SiOxCy)

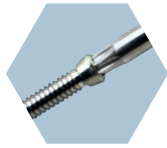

Pure elemental silver (Ag⁰)

Get to know the system in one of our workshops including the DT Product Range.

The Patent-Pending Design of TorqAlign Screws

TorqDrive Recess

Designed for automatic screw retention and minimal stripping.

Atraumatic Tip

Designed to reduce the risk of soft tissue irritation.

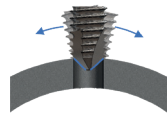

Pilot Tip

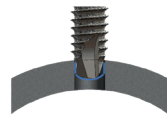

Designed to optimize axial screw alignment with the drill hole.

The proprietary tip of the TorqAlign Screws is designed for axial screw alignment.

The pilot tip helps ensure screw insertion is coaxial with the drill hole and may help reduce the risk of transcortical fracture development.

Wobble
with conventional screws

No Wobble
with TorqAlign screws

Item#	Description
TA SLH ST 150.06 - 30	1.5mm TorqAlign DT Locking Screw, Self-tap, T4 Head, Stainless. Available in lengths from 06 - 30 mm
TA SLH ST 200.06 - 30	2.0mm TorqAlign DT Locking Screw, Self-tap, T6 Head, Stainless. Available in lengths from 06 - 30 mm
TA SLH ST 240.06 - 40	2.4mm TorqAlign DT Locking Screw, Self-tap, T8 Head, Stainless. Available in lengths from 06 - 40 mm
TA SLH ST 270.06 - 40	2.7mm TorqAlign DT Locking Screw, Self-tap, T8 Head, Stainless. Available in lengths from 06 - 40 mm
TA SLH ST 350.10 - 72	3.5mm TorqAlign DT Locking Screw, Self-tap, T15 Head, Stainless. Available in lengths from 10 - 72 mm

DT Product Range

Minimal Inventory, Maximal Usability

The DT product range allows for a multitude of procedures - All with one locking screw system.

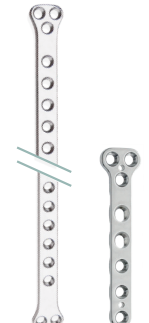

TPLO and
Offset TPLO Plates

Fracture and
Compression Plates

Pancarpal/-Tarsal
Arthrodesis Plates

Multi-Procedure
and T-Plates

Locking Distal
Femur Plates

Bridging Plates

Locking
Acetabular Plates

DPO/TPO Plates

TorqDrive Driver for TorqAlign Screws

- Compatible with TorqAlign screws.

Item#	Description
500050	TorqDrive, Driver Shaft, T15 Self-Retaining, QCK Connect
500051	TorqDrive, Driver Shaft, T8 Self-Retaining, QCK Connect
500052	TorqDrive, Driver Shaft, T6 Self-Retaining, QCK Connect
500053	TorqDrive, Driver Shaft, T4 Self-Retaining, QCK Connect
500054	TorqDrive, Driver Shaft, T4 Self-Retaining, MINI/QCK Connect
500002	Composite Screwdriver Handle, QCK Coupling
500001	Composite SM Screwdriver Handle, (Black PPSU), QCK Coupling, for 1.5-2.7mm Screws
500020	Mini Quick Coupling Handle (Dental Handle), 4.25in (10.5cm)
