

NGD Tracheal Rings

Advancing Tracheal Support
with Precision and Ease

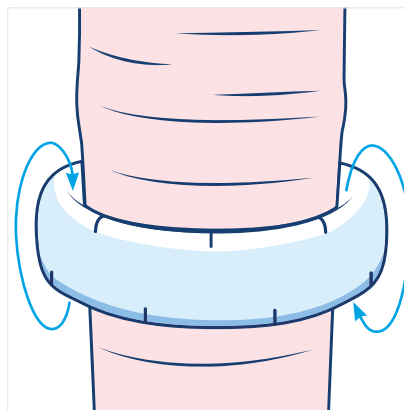

The Tracheal Ring is the latest innovation in tracheal support, designed to simplify placement while minimizing trauma. Compared to traditional hand-made syringe case prostheses, these rings are designed to provide superior functionality, efficiency, and safety – reducing surgical time and improving patient outcomes.

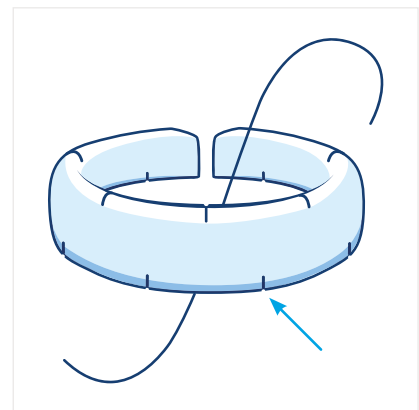

Available in Four Sizes for Precise Fit

Progressive ring sizes and one-pass suture design to speed up surgery.

Minimized Trauma

Smooth, tapered design to minimize trauma and protect delicate structures.

Enhanced Stability

Suture detents ensure secure, customizable placement without extra modification.

Item#	Diameter	Implant Variant
TR-SM09	9mm	Tracheal Ring Small (Box of 8)
TR-MD12	12mm	Tracheal Ring Medium (Box of 8)
TR-LG15	15mm	Tracheal Ring Large (Box of 8)
TR-XL18	18mm	Tracheal Ring X-Large (Box of 8)
